One of our primary areas of expertise is **Document Management/Imaging and Workflow**. This technology can vastly improve the efficiency of an office that deals with lots of paper and desires to reduce the inefficiencies that go with such an operation. Specific experience that we can apply to your project include:

- ◆ Image System Trade Studies and Cost Justification
- ◆ Business Process Reengineering Analysis
- ◆ System Engineering and System Architecture Design
- ◆ System Specification and Procurement for Image and Computer systems equipment and software, storage and networking devices
- ◆ System Configuration, Installation
- ◆ Software Development for Custom Interfaces and Custom Functionality
- ◆ Development of Scan and Index facilities and procedures
- ◆ Development of Custom Application Interfaces such as OCR
- ◆ Data Conversion of existing image index data
- ◆ Support and Upgrades

We have existing clients in the areas of insurance, banking, medical, and government. We are a system integration company. Our approach to a job is to work with the customer and apply the technology that meets **your requirements**. We have affiliations with a number of imaging system software and hardware providers, but we ultimately will specify and implement the system that best fits **your needs**, and **your budget**. Systems with which we have direct experience include:

- ◆ Cabinet NG
- ◆ IMR Alchemy
- ◆ Cardiff Systems Teleform
- ◆ KOFAX
- ◆ Archive Power
- ◆ PC Docs
- ◆ CyLex

Another area of expertise for **AISI** is assisting clients to establish an **Internet Presence**. This technology can greatly enhance your marketing, customer service, internal or external communications, or even sales. Specific experience that we can apply to your project include:

- ◆ Website Design and Development
- ◆ Online Catalog Solutions
- ◆ Database Interface to Existing Databases
- ◆ Web Enabling of Existing Applications

We have existing clients in the areas of insurance, consulting, online services, and government. We are a system integration company. Our approach to a job is to work with the customer and apply the technology that meets **your requirements**.

We have affiliations with a number of different technologies, but we ultimately will specify and implement the system that best fits **your needs**, and **your budget**. Some Internet technologies with which we have direct experience include:

- ◆ MS Front Page
